

# Safety Alert

**ATTN: EMS CENTRAL  
SUPPLY WAREHOUSE**

**RECALL**

**FRESENIUS KABI**

**Epinephrine**

**1 mg/mL – 1 mL**

**VIAL**

**QUESTIONS – CALL 727-582-2133 OR  
727-582-5756**

**Due to recall, it is possible that higher or repeat doses of epinephrine 1mg/mL may be required when treating anaphylaxis or severe asthma.**

**If making epinephrine drip, use only the 1mg/10mL concentration**

**Consult OLMC for the above or with any concerns**

**REQUIRED ACTIONS:**

1. IMMEDIATELY deploy new inventory upon receipt while simultaneously removing and quarantining all existing inventory of the affected epinephrine vials from kits, vehicles, stations, etc.
2. Box up all removed/quarantined product, affix the attached recall label to the outside of the box, and have available for pickup and return to the EMS Central Supply Warehouse

**REASON:** Fresenius Kabi has decided to take this action due to physicochemical out-of-specification (OOS) results at the 18-month stability test station

**Clinical Impact:** The Health Hazard Evaluation concluded an overall low risk to patients. No adverse event reports have been received to date.

Manufacturer	Product Name	NDC	Product Code	Lot #	Expiration Date
Fresenius Kabi Pharmaceuticals	Epinephrine Injection 1 mg/mL, 1 mL Fill Vial	63323-696-02	696125	Multiple	Multiple
